KLEHM'S GUARANTEE

Klehm's offer you a liberal and fully defined guarantee printed on the back of your sales slip for each nursery purchase. Retain your sales slip as evidence of purchase. Contracts drawn for landscape jobs.

SEE BEFORE YOU BUY

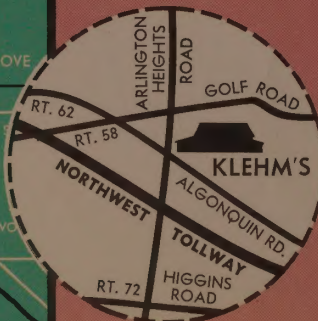

You are cordially invited to visit our friendly "headquarters" in the big pink barn at the corner of Algonquin and Arlington Heights Roads and to tour the various Klehm Nursery fields to see a wide selection of Evergreens, Trees, Shrubs, Peonies and other perennials in bloom.

BE OUR GUEST . . . FEEL FREE TO BROWSE THROUGH OUR SALESYARD, GIFT SHOP AND GREENHOUSES. KLEHM'S EXPERIENCED

IT'S EASY TO GET TO CHARLES KLEHM & SON NURSERY. Map shows location of Nursery at Intersection of Algonquin (Route 62) and Arlington Height Roads.

PLENTY OF PARKING—Acres of parking space set aside for our customers.

COMING FROM A DISTANCE? USE THE N.W. TOLLWAY

No waste of time to stop off at Klehm's Nursery if you're traveling the Tollways. Going west, leave the Northwest Tollway at Rte. 83 (Elmhurst Road), go north and west on Route 62 for 2 miles to Klehm's Nursery; make your selection and get back on the tollway at Route 53. Continue on your trip without any backtracking or waste of time.

Going East towards Chicago, get off at Route 53, drive 1 block north to Route 62 (Algonquin Road), go East on 62 three miles to Klehm's Nursery. Back again on your journey getting on tollway at Rte. 83. See map.

KLEHM'S GIFT SHOP—Choice pottery, vases, planters, figurines and other gifts from all over the world. Centerpieces designed especially for you. Come and browse.

serving the northwest suburbs of Chicago for over a century

MEET THE FAMILY

4th Generation Nursery Experience—Since 1852

Carl G. Klehm is owner and manager. He is the son of Charles, grandson of John Klehm, who had the original Klehm Nursery. Mrs. Carl G. Klehm (Lois) is buyer and manager of the Gift Shop. Chuck Klehm, like his Dad, has his B.S. in Ornamental Horticulture from University of Illinois. Chuck also has his M.S. from U. of Wisconsin and is working on his Doctor's degree at the U. of Illinois now. Roy Klehm is a Junior at the U. of Illinois, buyer of all greenhouse plants, and in the salesyard when he is home. Kathy is pictured below, and you'll find 11-year-old Arnie passing out those popular lollipops to the very young customers.

THE VALUE OF REPUTATION

Our experienced personnel represent a wide range of pertinent specialties — turf experts, nurserymen, and graduate landscape designers to advise you on a well organized planning and planting program.

In the nursery business the value of reputation and long years of service cannot be overemphasized.

Purchase from Klehm's Nursery—a firm of reliable growers—men who have experience, who are well established and will help you year after year with your planting needs. Remember, your garden has no room for misfits, indifferent garden plants. We have the stock, the time and experience to help you make the right selections.

GOOD LANDSCAPING IS A GOOD INVESTMENT

Every dollar invested in trees and shrubs increases the value of your property at least six times the cost of the plants.

CHARGE ACCOUNTS

Your purchases may be charged on a monthly charge account. Extensive landscapes can be budgeted on a variety of plans to suit your needs.

Members: American Association of Nurserymen; Illinois State Nurserymen's Association; National Landscape Nurserymen's Association; Illinois State Florists' Association; Allied Florists; Society of American Florists; American Peony Society (charter member); National Mail Order Nurserymen's Association; National Plant Patent Owner's Association.

PERSONNEL AND CAPABLE SALES FORCE IS ALWAYS READY TO ANSWER YOUR QUESTIONS AND GUIDE YOUR SELECTIONS.

FLATS OF SUMMER ANNUALS—Choose your favorites from our large, complete selection. Annuals give continual bloom from early summer till late fall.

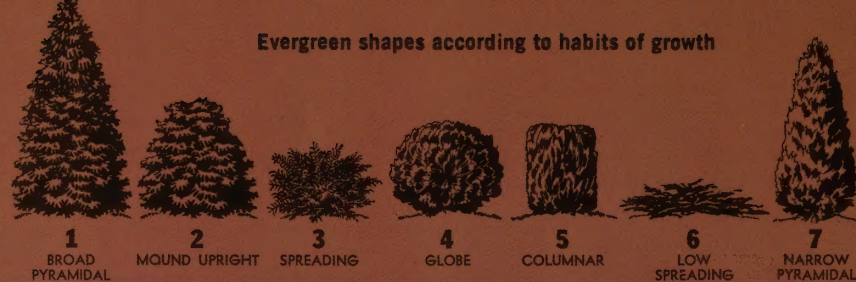

KATHY KLEHM SELLING CUT GLADS—In season we have available cut lilacs, peonies, glads and chrysanthemums, as well as bitter-sweet, holly and boxwood.

GERANIUMS IN KLEHM GREENHOUSES—Geraniums are ready to be transplanted into gardens in May. We specialize in unusual plants for your indoor planters.

KLEHM'S FAST DRIVE-IN SERVICE—To the rear of the greenhouses, you will find our fertilizer shed. No need to even get out of your car. Drive up, let the boys load in peat moss, fertilizer, mulch, etc.

HARDY SPECIMENS LOCALLY GROWN

When winter strips other trees and shrubs of summer fullness, and their gay fall color, evergreens assume the full importance of their role in the well planned landscape program. In endless variety they lend color to the winter scene, they soften and screen unattractive areas, they give promise of year-round beauty complementing the whole scene.

Winters don't "fool around" here in Northern Illinois, so it is important to buy hardy well-grown stock. The Klehm Nursery has acres and acres of quality stock acclimated to the most severe winters.

PLANTING SEASON

The planting season extends from the latter part of March through December 15. Visit our salesyard and choose a single specimen, or several as a "friendly" evergreen screen for your outdoor living privacy.

*All evergreens are dug
with a ball of earth.*

ARBORVITAE

Globe (4) — Retains its globe shape without trimming. Foliage is rich green.

24"..... 4.50 36"..... 6.50

Pyramidal (7) — Light green foliage, narrow pyramidal, makes splendid tall screen.

30"..... 4.50
42"..... 6.50 54"..... 10.00
48"..... 8.00 60"..... 12.00

FIR

Concolor (1) — Broad upright evergreen with 2-inch blue gray needles.
24"..... 12.50 30"..... 15.00
Large specimens \$75.00 and up.

Douglas (1) — Soft bluish green foliage, fast growing, large tree.

24-30" .. 9.00 42"..... 15.00
36"..... 12.50 48"..... 18.00

HEMLOCK

Canadian (2) — A very graceful evergreen, does well in partial shade, can be used as a trimmed hedge.

48"..... 15.00

JUNIPERS

Popular, hardy evergreen, providing many forms and much variety in color. For ease of choice, we have divided these into spreading and upright growing varieties.

Spreading Varieties

Andorra (6) — Creeping, spreading, very hardy, rapid grower. Summer color green; winter, plum colored.

Golden Prostrate (6) — Rich golden color.

Hetzi Spreading (3) — Beautiful blue foliage, rapid grower, hardy evergreen.

Pfitzer (3) — Very hardy, fast growing, graceful spreader with feathery gray-green foliage.

Von Ehron (3) — Rich green foliage, rapid grower, vase shaped.

Prices for all of the above spreading Junipers measured by width of spread.
15"..... 4.50
18"..... 5.50 36"..... 10.00
24"..... 6.50 42"..... 12.50
30"..... 8.00 48"..... 15.00

White's Silver King (6) Plant Pat. 1186—Silver-blue with horizontal branching. Measured by width.

24-30" ... 8.50 30-36" .. 11.00

Upright Growing Varieties

Blue Haven (7) — Brightest blue of all upright junipers.

Canaerti (7) (2) — Gorgeous plant with rich green heavy foliage, bright blue berries in fall, maintains good winter color.

Chinese Grafted Varieties (1) — Very hardy broad-based pyramid.

Dundee (7) — A compact symmetrical pyramid, rich green foliage which turns plum colored in winter.

Hetzi Staked (2) — Semi-upright that can be kept from growing too tall.

Prices for above upright Junipers:
36"..... 10.00 54"..... 18.00
42"..... 12.50 60"..... 22.00
48"..... 15.00 66"..... 27.50

Spiny Greek (2) — Gray-green foliage, broad compact, well-formed pyramid, slow grower.

18"..... 4.50 24"..... 6.50

COLORADO BLUE SPRUCE—Meet one of the Klehm sons, Roy—on vacation from Illinois Univ. Horticultural School—ready to load a Colorado Blue Spruce into customer's car.

SPREADING PFITZERS AND BURNING BUSH IN OCTOBER COLOR—Let our designers suggest planting combinations to suit your taste and landscape needs.

KLEHM SALESYARD—Photo taken August, 1962, showing spreading *Andorra Junipers* in foreground. With modern nursery practices, evergreens can be transplanted all summer.

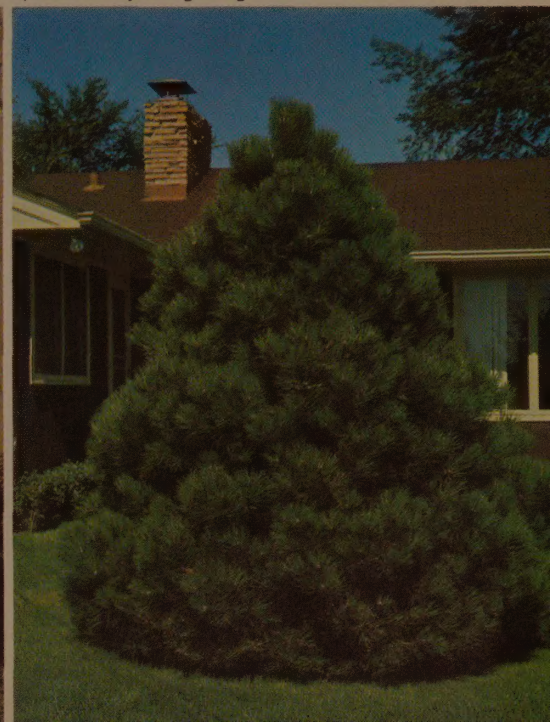

CANAERTI JUNIPER surrounded with low-spreading *Andorra Junipers*, *Red Leaf Plum* bush in background. This home was landscaped by Klehm's.

FIR—This photo was taken in the Klehm Nursery. The Fir is a hardy northern evergreen that can "take" our rigorous winters.

SCOTCH PINE—A typical Klehm's well-sheared specimen. Very fast growing.

COMPACT SPREADING YEW (*Taxus densiformis*) — Plant your own with our FREE landscape advice. See page 22.

UPRIGHT YEW, MUGHO PINE AND RED BARBERRY highlight charming home planting in Mt. Prospect, planted by owner.

ESPALIER—A connoisseur's plant for interest on blank walls and fences, to utilize limited areas and as a conversation piece. Can be trained formally or informally for interesting branching habit.

Available for espalier—Pears, *Euonymus*, Crabapple, and *Pyracantha*.

24"..... 11.00	42"..... 19.50

BROAD LEAF EVERGREENS

A limited selection of broad leaf evergreens can be successfully grown in this area. Let us help you select the proper varieties.

Azalea (see flowering shrubs)

Price range from \$2.25 to \$12.00.

Euonymus (Coloratus) — See vines and ground covers. (Page 21)

Euonymus Erectus—An upright form of Vegetus. Makes an outstanding dwarf hedge.

15" potted	1.75
18" potted 2.25	24-36" B&B 4.75

Euonymus Patens — A glossy shrub with orange berries.

18-24" B&B 6.50	54" B&B .. 15.00
-----------------	------------------

Euonymus Vegetus (Big Leaf Winter Creeper or Evergreen Bittersweet)—Versatile plant used as a shrub, hedge, vine or ground cover.

Potted	1.50 to 3.50
18-24" B&B	6.50
24-30" B&B	9.00

Mahonia or Oregon Grape Holly

A shrub with holly-like leaves, holds foliage all winter. Bright yellow flowers in May. Good for shade. Shield from winter sun.

15-18" B&B 7.50	18-24" B&B 10.00
-----------------	------------------

Myrtle (Periwinkle or Vinca Minor)—Evergreen ground cover with blue flowers.

40c to 1.25

Pachysandra—See Vines and Ground Covers. (Page 21)

Pyracantha (Firethorn) — Lush green foliage, abundance of white flowers, huge clusters of brilliant orange-red berries. Lovely as espaliers—trained to grow flat against a wall or fence.

2.50 to 20.00

Rhododendrons (For best results plant in shaded area.) Double flowering pink and red.

12.50 - 25.00

Yucca (Spanish Bayonet)—Rosettes of sword-like leaves and white candle-like summer flowers give this plant a desert appearance.

4.50 to 7.50

PYRACANTHA ESPALIER—Try this on your blank wall!

EUONYMUS VEGETUS (Big-leaf Wintercreeper). Hardy broad leaf evergreen featured by Klehm's for use as groundcover or vine.

PIN OAK—Select from Klehm's fields of Pin Oaks a specimen long-lived tree with lustrous green Summer foliage, gay Fall color.

Suggested use of trees

FAST SHADE. Silver Maple, Sycamore, American Ash, Patented Honey Locusts, American Linden, Hybrid and Chinese Elms.

DENSE SHADE. Norway Maple Varieties, Sugar Maple, Moline Elm, Lindens, Oaks, Sycamore.

LIGHT SHADE. Patented Honey Locusts, Mountain Ash, Golden Rain Tree (Koelreuteria), Flowering Crabs, Birch.

PERMANENCE. Sugar Maple, Crimson King Maple, Pin and Red Oaks, Norway Maple.

MOIST LOCATIONS. Scarlet Maple, American Sycamore, Willows, Orange Birch.

BALLED AND BURLAPPED TREES CAN BE PLANTED ANY SEASON

Modern nursery transplanting techniques have lengthened the planting season for the customer, so it is always wise to inquire at any season if we have the tree you want balled and burlapped for your selection. *The principal planting season is the dormant period—all the months from October 15 through May 15 (depending upon the weather and the condition of the ground. Late fall and early spring is the time for*

OUTSTANDING FLOWERING EFFECT. Red Bud, Flowering Crabs, Flowering Peach, Magnolia, Golden Rain Tree, Flowering Apricot, Horsechestnut, Flowering Plum.

OUTSTANDING BERRIED EFFECT (ATTRACT BIRDS). Mountain Ash, Crabapples, Golden Rain Tree; Washington, Crusgalli, or Winter King Hawthorns.

AUTUMN FOLIAGE COLOR. For orange-red hues—the Oaks, Sugar and Scarlet Maple, the Hawthorns, Klehm's and Bechtel's Crabapples, the Dogwood Tree. For clear yellow tones—the Ginkgo, Red Bud, all varieties of honey locust, the Birches and American Ash.

WINTER EFFECT. Hawthorns, Pin Oak, Sargent's Crab, Clump Birch, Red Bud, Golden Rain Tree. See Evergreen Section for Spruces, Firs and Pines.

moving small or bare-rooted trees. Really large trees are moved all winter. All summer we carry a good selection of both balled and burlapped and container-grown trees in our salesyard.

Balled and burlapped (B&B) means the tree is dug with a ball of earth that is held in place around the roots with burlap. This is necessary in moving larger trees, sizable ornamentals, or trees in leaf.

TREE PRICES

For your convenience in selection, trees are divided into two groups, those primarily used as **Shade Trees**, and those primarily planted as **Ornamental Trees**.

Except where listed differently, prices are keyed to the following chart, A, B, C, D, E. Young trees and certain ornamentals (Hawthorns, Magnolia, Red Bud, Birch) are sold by height; older trees are sold by diameter of the trunk (known as the caliper), which is measured six inches from the ground.

If customer requests ball on trees not quoted as such, the following charges will be added to list prices—1½", 7.50; 2", 9.00; 2½", 13.50; 3", 18.00.

PRICE GROUP A

SHADE TREES

ASH (Fraxinus)

Green or American—Rapid, tall growing pyramidal tree, easy to transplant, allows grass to grow underneath. (Group A)

Blue—Attractive foliage, corky bark. (Group B)

Marshall—A new outstanding variety that is seedless. (Group B)

CORK TREE (phellodendron amurense)—Ornamental tree grown for attractive foliage and corky bark. (Group B)

ELM

American—A stately, graceful tree, Gothic-type structure. (Group A)

Chinese—Hardy, rapid growing slender branched tree, not readily susceptible to Dutch Elm disease. (Group A)

Chinese Hybrid—Very fast growing tree with large leaves, combining the good qualities of the Chinese and American Elms. (Group A)

Cork Elm—An Elm with a central leader and corky branches. (Group B)

Moline—Outstanding, vigorous columnar tree, fast growing, beautiful foliage from early spring to late fall; allows grass to grow underneath. (Group B)

Wheatleyi—Narrow pyramidal tree with ascending branches. (Group B)

GINKGO—Maiden Hair Tree

Stately tree with unusual fan-shaped leaves of bright green turning golden yellow in the fall. Immune from insects. Known to have grown in China in prehistoric times. (Group C)

FLOWERING CRABAPPLE—Klehm's have the flowering crabapple to fit your needs with flowers of red, pink or white—large or dwarf, narrow or wide-spreading trees.

HACKBERRY

Gothic type tree resembling the elm but is immune to the elm disease. (Group B)

HONEY LOCUST

Fast growing tree with branches flaring upward and outward, lacy fine foliage that creates an interesting shadowy effect and allows grass to grow beneath — resistant to insects and diseases — tolerant to storms, drought and drainage.

Globe—Globe head of fine textured foliage. Ideal for formal areas. 48" heads budded on 5-6'

trunks, B&B 40.00

Thornless—A fine fast growing variety. (Group B)

PATENTED—A new family of thornless locusts have been selected with specific form and purpose in mind. This is one of the finest series of new trees.

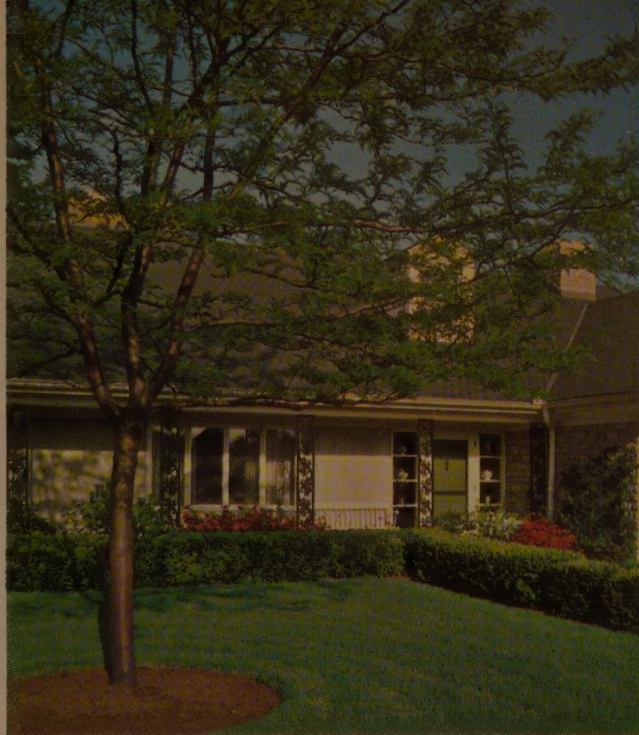

Imperial (Plant Pat. 1605). Graceful spreading variety with symmetrical arrangement to form a compact tree. (Group B)

Majestic (Plant Pat. 1534). Strong, graceful tree with spreading growth habit. Casts good shade. (Group B)

Moraine (Plant Pat. 836). Wide spreading, vase shaped tree. (Group B)

Shademaster (Plant Pat. 1515). An outstanding tree—claimed by many to be the finest honey locust available. It has the following characteristics: (Group B)

- | | |
|------------------------------|---|
| 1. Straight strong trunk | 8. Drought resistance |
| 2. Ascending branches | 9. Holds foliage late in fall |
| 3. Heavy, dark green foliage | 10. Deep roots |
| 4. Requires no staking | 11. Does not heave sidewalks |
| 5. Rapid growth | 12. Grass will grow right up to the trunk |
| 6. Transplants easily | |
| 7. Freedom from diseases | |

PATENTED HONEY LOCUST—Light filtered shade; rapid, graceful growth make these patented varieties favorites. Klehm's has an excellent selection.

Skyline (Plant Pat. 1619). A more compact variety with distinctive pyramidal form. (Group B)

Sunburst (Plant Pat. 1313). Bright golden foliage on branch tips contrasting with the rich green of the inner foliage makes it appear to be in bloom all summer. (Group C)

HORSECHESTNUT

Lovely medium sized rounded tree that casts dense shade and has beautiful white cone-shaped flowers in spring. (Group B)

LINDEN

Rapid growing, spreading tree.

American — Native tree with wide, rounded head and heart-shaped leaves. (Group A)

WASHINGTON HAWTHORN—This is one of Carl Klehm's favorite ornamentals because of its year-around beauty.

MT. ASH—The orange berries are attractive from August until December making this a very popular tree.

Plant Now to Spend Your Summers Under Cool Shade Trees

CRUSGALLI HAWTHORN — Autumn color of our young native Cocksbur Hawthorn. Photo taken in Arlington Heights, Autumn 1962.

LINDENS — Continued

European—Handsone, dense headed tree with heart-shaped leaves and fragrant flowers in June. Outstanding street tree of Northern Germany, which is well adapted to the Midwest as it withstands cold weather, heat and drought. (Group B)

Redmond—A pyramidal tree with uniform shape that has been selected for luscious foliage and fast growth. Disease resistance, crimson buds and twigs, and large leaves make it an outstanding lawn and parkway tree. (Group B)

MAPLE

Most popular and useful group of shade trees.

Norway — Dense round headed tree with rich dark green foliage, fastest growing of the hard maples, most outstanding street tree. Clear yellow fall foliage. (Group B)

Norway Maple Varieties

Columnar, Crimson King, Drummondii and Schwedler

Columnar Norway—Narrow, dense tree with heavy dark green foliage used as an accent or in narrow areas. (Group B)

Crimson King (Plant Pat. No. 735). Purple red foliage throughout entire summer. Slow growing. (Group C)

Drummondii (Silver variegated Norway Maple) — Green foliage edged with white borders which follow the contour of the leaves. (Group C)

Schwedler — Leaves brilliant red in spring, rich bronzed green in summer. (Group C)

Scarlet—Large oval shaped tree with small red flowers in early spring, leaves tinged orange and red in fall, medium growth — hardwood. Will take fairly moist location. (Group B)

Sycamore Maple — Medium sized spreading tree casting desirable shade. Vigorous growing compact maple—hard wood. (Group B)

Silver — Most popular rapid growing soft maple. Underside of leaves is silver colored. Excellent tree to buy where quick shade is needed. (Group A)

Sugar — One of the most beautiful shade trees—broad symmetrical top. One of the best maples beneath which to grow grass. This is the maple whose fall coloring is breathtaking in its golden and orange loveliness. It represents quality, permanence and character. (Group B)

Pyramidal Sugar Maple — Same qualities as sugar, but the shape is developed as a narrow upright tree. (Group C)

OAK

Pin—Outstanding pyramidal specimen tree, bright green foliage in summer, turning to beautiful reddish hues in the fall. Leaves tend to remain on tree during winter, giving added interest. Will take moist location. Fastest growing of the oaks. (Group B)

Red — Spreading habit of growth, broad massive limbs as it matures. Excellent fall coloring, a tree of quality and character. (Group B)

English Columnar Oak — Dramatic tree with upright slender branches loaded with small round lobed leaves. Dried foliage clings on during winter. (Group C)

POPLAR

Bolleana—Columnar habit of growth, leaves glistening white underneath, used for narrow tall screening. Rapid growing and hardy. (Group D)

VEITCHI PLUM—The bronze summer foliage adds to its ornamental value. You will find a good supply of this charming tree in our nursery.

CLUMP BIRCH IN PATIO SCENE—Give Klehm's landscape designers a chance to make your outdoor living room more beautiful and exciting with fragrant and interesting plant material. The birch bark gives four-season interest.

SYCAMORE

Rapid and heavy shade can be obtained with this fast growing tree.

American—Large tree that will grow in wet soil. (Group A)

European—Upland tree with smaller leaf than the American sycamore — branches almost white in color. It is impressive where a fast growing lawn specimen is needed. (Group B)

WILLOW

Niobe Golden Weeping — Well known graceful weeping tree with branches yellow in winter. Fast growing and good for moist location. Needs room. (Group A)

NOTE: Many people like to come to our nursery in early Fall to select their trees for delivery when dormant in November or December. Each tree selected and tagged will be considered a firm order, and a deposit of 25% is required.

PATENTED CRIMSON KING MAPLE—Keeps its red color all summer. You will be thrilled with the selection available at Klehm's.

ORNAMENTAL TREES

BIRCH

The peeling white and orange bark is attractive four seasons of the year. Used to create woody naturalistic effect.

Clump Orange Birch — Naturalistic and woody trees with peeling orange bark.

Clump White Birch—The white bark of its multiple trunks adds great charm to the landscape picture. (The bark whitens with age.)

Prices for orange and white birch:

5-6' growing in basket.	9.00
6-8' B&B. . . 18.00	14' B&B. . 40.00
10' B&B. . . 25.00	18' B&B. . 60.00

Cut-leaf Weeping—Graceful weeping branches, finely cut foliage and shimmering white bark. (Group B)

NORWAY MAPLE—Klehm's Norway Maples have straight trunks with dense, well-formed heads. Come and select your own.

FLOWERING APRICOT

An excellent early bright pink flowering tree with artistic twisted branching. (Group D)

FLOWERING CHERRY

Kwanzan — Well known because of cherry blossom festival in our nation's capital. Double pink flowers. (Group E)

Weeping Cherry — Graceful shape, double pink flowers. (Group E)

FLOWERING CRABAPPLES

The hardiest flowering tree for our climate. Easy to grow as they are native to the Midwest and are one of the finest groups of ornamental trees in existence. The selection of color, flower, fruit, foliage, and habit cannot be compared to any other class of trees. Delicate flowers in spring followed by attractive foliage; in fall the red, yellow or purple fruit is very showy and attractive to birds.

SUGAR MAPLE—A quality long-lived tree native to the area. Exquisite fall coloring. A perfect lawn and street tree. We have an outstanding selection.

Almey—Large fiery crimson blossoms. Blooms when very young. Dark red fruit that hangs on well. (Group D)

Bechtel's — Double pink flowers, no fruit. Small round headed tree. (Group D)

Crimson Brilliant (Plant Pat. 939)—A most brilliant red flowering crab, which has purple-red fruit in the fall. (Group E)

Echtemeyer (pink weeping) — A dramatic tree. The effect is like a fountain with weeping branches that droop from the top of the tree towards the ground. Luscious blood-red buds, followed by pink flowers. Fall fruit is red. (Group E)

Eleyi — A large wide spreading tree, making a good combination for shade and beauty; red flowers, purplish red foliage, red fruit in late summer. (Group D)

AMERICAN ASH — Fast growing hardwood tree. Ask us for Klehm's recommendations of other trees for quick shade.

STAR MAGNOLIA—Exquisite, artistic and fragrant. Let us help you design a real southern garden featuring magnolias and azaleas that are fully hardy in Northern Illinois.

SAUCER MAGNOLIA—See Klehm's Magnolia Soulangiana in bloom in our sales yard. Plant our Illinois-grown Magnolias.

RED BUD—Klehm's Red Buds are propagated from the hardiest northern-grown stock and grown in our fields in Arlington Heights.

SUNBURST LOCUST
yellow tipping

FLOWERING CRABAPPLES — Continued

Espalier—Trained to grow flat against a wall or fence. Almey and Schedecki varieties 5 years old, B&B. Individually priced \$15.00 to \$75.00.

Hopa—Popular crabapple because of upright growth habit, profusion of dark pink flowers, and red fruit. Good combination shade and gorgeous flowering tree. (Group D)

Klehm's Improved Crab—Hardy small ornamental tree, round head, neat and formal. Blooms profusely with fully double 2" pink flowers borne in fragrant clusters. Colors well in fall. (Group D)

Sargent's—A real dwarf tree with twisted branching effect, white flowers and red fruit—artistic and interesting. Suitable for foundation planting with evergreens. (Group E)

Schedecki—Semi-double, delicate pale pink flowers of substance and abundance. In fall has yellow fruit overlaid with orange; a semi-dwarf tree outstanding for specimen use. (Group E)

Sieboldii—Semi-double white flowers, red fruit. (Group D)

Strathmore—A narrow pyramidal flowering tree with dark pink flowers, leaves remain reddish; makes a wonderful narrow screen. (Group D)

Tri-Colored Flowering Crab—A conversation piece. Three varieties budded on one tree. (Group E)

Zumi Calocarpa—Fragrant pink buds, opening pure white. Dense upright growth with lush dark green leaves. Red fruit. (Group D)

We also have the following varieties available in various sizes: **Arnold (P)**, **Centennial (W)**, **Dolgo (W)**, **Floribunda Purpurea (R)**, **Jay Darling (R)**, **Parkman (P)**, **Radiant (R)**, **Van Eseltine (P)**.

FLOWERING DOGWOOD

Small horizontally branched tree which flowers in spring and has vivid red colored fall foliage. Does well in shade or under taller trees.

Cherokee Chief (Plant Pat. No. 1710) True Red Flowering Dogwood. Brilliant red blossoms. 3' B&B 12.00

White—White flowers in spring.
3' B&B 10.00
4' B&B... 12.00 5' B&B... 16.00

FLOWERING PEACH

Outstanding spectacular flowering tree with red flowers. Some varieties available with red foliage. (Group D)

FLOWERING PLUM

Handsome, hardy small tree that is outstanding in bloom.

Blireiana—Double pink flowers, copery foliage. (Group E)

Veitchi—Double pink flowers, bronze colored foliage, delicious small sweet plums, first tree to bloom along with forsythia. (Group E)

GOLDEN RAIN TREE (Koelreuteria)

Spreading tree with panicles of yellow flowers in summer. (Group D)

*With fruit like a Jack-o-lantern and flowers pure as gold
The attractive Koelreuteria is picturesque to behold.*

"B&B" means that the tree is dug with a ball of earth that is held together with burlap

UNUSUAL ITEMS AVAILABLE IN SMALL QUANTITY

This illustration shows the artist's conception of our Hankow Corkscrew Willow. This is just one of many unusual plant items available at our nursery.

Because of small quantity, the following are available but do not rate a regular listing — Wafer Ash, White Red Bud, Moss Locust (Robinia), Tulip Tree, American and Chinese Chestnut, Autumn Gold Ginkgo, Tamarix, Buddleia, Harry Lauder's Walking Stick, Japanese type Silver King Upright Juniper, Katsura Tree, Amur and Japanese Maple, Dawn Redwood, Purple Smoke Tree.

ST—Interesting green leaves.

HAWTHORNS

Native picturesque small trees with glossy foliage and bright red fruit. They can withstand city conditions.

Crusgalli—Horizontal branches, white flowers, bright red fruit, brilliant fall coloring.

4½' B&B... 15.00 6½' B&B... 35.00
5½' B&B... 25.00 7½' B&B... 45.00

Paul's Scarlet—Small tree, exciting double light red flowers—the May tree of English legends. (Group E)

Toba—Double light pink fragrant flowers, vivid red fruit. (Group E)

Washington—Outstanding vertical tree with white flowers in spring, glossy leathery foliage in summer, brilliant red hues in fall and bright orange-red berries that hang on most of the winter—ideal for narrow screens or specimens.

4' B&B... 9.00 8' B&B... 15.00
5' B&B... 12.50 6' B&B... 18.00

Winter King—Grown for outstanding berried effect in winter. Bright gray bark, good horizontal branching effect. (Group E)

MAGNOLIA

The hardy Southern Belle for our Northern gardens.

Lennei—Rich deep purple flowers.

2-3' B&B... 7.50 3-4' B&B... 10.00

Saucer Magnolia (Soulangeana)

Popular magenta and white saucer flowers before leaves appear. Upright growth habit usually with several trunks—smooth gray bark.

2-3' B&B... 7.50 4-5' B&B... 12.00

3-4' B&B... 9.00 5-6' B&B... 18.00

Star Magnolia (Stellata)—Fragrant double star-like flowers appearing before the leaves. Low globe-shaped growth habit—almost bush form. One of the earliest plants to bloom.

24" B&B... 8.50 36" B&B... 15.00

30" B&B... 10.00 42" B&B... 20.00

MOUNTAIN ASH (Sorbus)

Graceful fine foliage. Its double attraction of white flowers in May, followed by clusters of orange-red berries in August give it a place in every planting. (Group E)

RED LEAF PLUM (tree form)

Dressed all summer in red, this tree provides color and complements any home. Small, pale pink flowers in early spring. (Group D)

RED BUD OR JUDAS TREE

Spectacular small tree with an abundance of lavender-pink blossoms in early spring before the heart-shaped leaves appear. Artistic, arching, horizontal branching habit makes this a designer's delight.

5' B&B... 10.00

6' B&B... 15.00 1½" B&B... 30.00

7' B&B... 20.00 2" B&B... 40.00

WILLOW

Hankow Cork Screw—A picturesque curly-stemmed upright growing tree. (Group E)

PLANT FRUIT TREES FOR TRIPLE VALUES

Spring blossoms

Summer shade

Fall fruits

SMALL FRUITS

Strawberries—the best in June bearing and everbearing varieties.

Grapes—Caco (red); Concord (dark blue); Freedom (black early); Niagara (white); Romulus (white seedless, hardy).

IN SEASON we have among our plants of outstanding quality Asparagus, Blueberries, Currants, Blackberries, Gooseberries, Strawberries and Grapes.

Enjoy the Pleasure of Picking Your Own Fruit

KLEHM

FLOWERING SHRUBS

For glorious spring color
For summer foliage interest
For "friendly" privacy screening
For gay autumn foliage and fruit
For low maintenance

Planting time for bare-rooted shrubs during dormancy—March, April, May, October and November.

FOR SUMMER PLANTING. Come see our selection of both economy potted shrubs and large balled and burlapped shrubs.

FRENCH HYBRID LILACS — A Klehm's specialty for four generations. Come to our sales yard in May and buy your lilac plants in bloom—purple, pink, white, lavender or blue.

FLOWERING ALMOND—Sweet, low foreground bush for early spring color in front of taller shrubs. Our "own root" almond will not revert to white bloom as do those grafted on plum stock.

DOUBLE MOCK ORANGE—Lavishly abundant, sweetly fragrant flowers of purest white, borne in large clusters. Choose this for June bloom.

HIGHBUSH CRANBERRY

FOR YOUR EASE IN SELECTION

Shrubs are divided into two categories in this catalog—the medium to tall—and the lower growing varieties. Prices are keyed "F" through "K."

Lower Growing Shrubs

Shrub prices are keyed with letters F, G and H. Prices for sizes in each group listed below.

GROUP F			
18"	1.25	30-36"	2.25
24"	1.75	30" B&B	4.50

30"	5.00	42" B&B	10.00
48" B&B			15.00

Suggested Use of Shrubs

Shady Location—Cotoneaster, Dwarf Honeysuckle, Viburnums, Alpine Currant, A.G. Hydrangea, Rhododendrons.

Dry Places—Barberry, Forsythia, Honeysuckle, Privet, Spirea Froebelli, Viburnums, Russian Olive.

Moist Spots—Zabelli Honeysuckle, Red-twigged Dogwood, Pussywillow, Arctic Blue Willow, Forsythia, Viburnum Dentatum, Witchhazel.

Winter Effect—Euonymus Alatus, Highbush Cranberry, Red and Yellow Twig Dogwoods, Red Barberry, Cotoneaster Divaricata, Pyracantha.

Autumn Color—Euonymus Compacta, Washington Hawthorn, White Dogwood, Viburnums, Red Barberry, Amur Maple, Cotoneasters, Pyracantha.

To Attract Birds—Shadblow, Barberry, Highbush Cranberry, Honeysuckle, Viburnums, Nanking Cherry, Buddleia.

Fragrance—Star Magnolia, Lilacs, Mock Orange, Viburnum Carlesii and Carlscephalum.

For Outstanding Flowering Effect See Our Colored Illustrations.

Lower Growing Shrubs

ALMOND (3')

Dwarf shrub with double pink flowers in early spring. Longer lived since they are on their own roots. (Group F)

ALPINE CURRANT (4')

Versatile dwarf shrub with lovely foliage that stands trimming and will grow under shady and poor conditions. (Group G)

AZALEAS (Group H)

Low shrub with spectacular flowers in early spring.

Boudoir (watermelon pink)

De Rothschild (mixed colors)

Director Moerland (golden yellow)

Hino Red (dwarf evergreen red)

Koster Brilliant (orange red)

Mollis Hybrids (yellow to salmon red flowers, deciduous)

Mucronulata (bright lavender)

Tall screening shrub with white flowers in May. These red berries hold their color and persist all winter.

FORSYTHIA—The breath of spring. Our varieties are selected for good blooming habits. You can even buy it in bloom, balled and burlapped.

FLOWERING QUINCE—Exciting, exotic shrub for earliest vivid colors. Klehm's Nursery recommends planting it balled and burlapped. Good to combine with evergreens.

VARIEGATED WEIGELIA—A Klehm's "double feature" shrub—pink flowers in May, with the added interest of green and cream foliage.

BARBERRY

Colorful graceful shrub.

Crimson Pygmy (18") — Outstanding new dwarf introduction with brilliant red foliage and nice compact form. Attractive hedging plant. (Group H)

Green (4')—Green leaves during summer, turning reddish in fall. (Group F)

Red Leaf (4')—Bright red foliage—most popular barrier plant. (Group F)

CARYOPTERIS (Blue Mist Spirea) (2')

Hardy blue spirea, low growing shrub covered with clusters of powdery blue flowers from August until frost. (Group G)

COTONEASTER

Grouping of shrubs noted for beautiful shiny foliage, berries, and fall color. For taller varieties see p. 16.

Apiculata and Praecox (12")—Arching low spreading shrub with shiny foliage. Red berries in fall. Good combined with evergreens in foundation plantings. (Group H)

DEUTZIA

Gracilis (30") — Dwarf graceful shrub with white fragrant flowers. (Group G)

HONEYSUCKLE

See page 16 for tall variety.

Dwarf Clavey (4') — Outstanding medium sized hedge plant; when sheared, it stays dense and full, will grow in partial shade. (Group F)

HYDRANGEA

Cut back to ground each fall if these are to be used for low shrubs.

A.G. (30") — White flowers throughout the summer, thrives in deep shade.

P.G. (5')—Huge pink cone shaped flowers that bloom most of the summer—outstanding shrub that needs sun. (Above varieties Group F)

HYPERICUM (Hidcote) (2')

Dwarf shrub with rounded form that blooms with yellow daffodil type flowers during July-Aug. (Group G)

MOCK ORANGE

For taller varieties, see page 17.

Golden (3')—Dwarf compact form used for yellow foliage contrast. Fragrant double flowers. (Group G)

POTENTILLA (2')

Soft fern-like foliage forms good background for bright yellow buttercup flowers throughout summer. (Group G)

PRIVET

Amur River and Lodense. See hedging, page 20.

Vicari Golden (5') — Golden yellow leaves, used for color contrast. (Group G)

QUINCE (Japanese Flowering)

For tall varieties, see page 18.

Texas Scarlet (24") — Unusual low spreading variety with bright scarlet flowers. Suitable for use with evergreens in foundation planting as it can be kept in size. (Group G)

DO YOU WANT PRIVACY?

Use a living screen of flowering shrubs. It's the "friendly" way and grows in beauty and value with each passing year.

VISIT KLEHM'S NURSERY . . . Our trained staff will help you select the "right" shrubs for your purpose, preference and budget.

EUONYMUS ALATUS — Winged Burning Bush. Outstanding fall color for the Midwest. Our plants are specimen grown.

Close-up of interesting square twig structure.

P.G. HYDRANGEA—Noted for summer blooms of pink that turn white and last for weeks.

PRUNUS TRILOBA (Rose Tree of China or Double Flowering Plum)—Klehm's are proud of their own-root, specimen plants.

SPIREA (for tall varieties see page 18)

Coccinea (30")—True red dwarf spirea. June bloom. (Group G)

Freibelli (36")—Pink-red dwarf, strong grower, similar to Coccinea, flowers a lighter red. (Group F)

Thunbergi (4') — A soft, low, graceful shrub with thin arching branches. Single small white flowers covering plant in May. Excellent foliage texture. (Group F)

Medium and Tall Shrubs

ALTHEA—Rose of Sharon (7')
Upright shrub with spectacular flowers throughout late summer.

Amplissium—double red

Ardena—double blue

Jean d'Arc—double white

Lady Stanley—double pink

Rubra—red

(Above varieties Group I)

BEAUTY BUSH (Kolkwitzia) (7')

A distinctive graceful pink flowering specimen shrub. (Group J)

BRIDAL WREATH (See Spirea, p. 18)

BURNING BUSH

(see Euonymus Alatus)

COTONEASTER

Grouping of shrubs noted for beautiful shiny foliage, berries, and fall color. For low varieties, see p. 15.

Acutifolia (6')—Choice upright narrow hedge or specimen plant. (Group I)

Divaricata (4') — Beautiful graceful arching shrub — one of the best shrubs for the shady spot. Nice for flower arranging. (Group J)

Multiflora (6') — Arching shrub with lacy fern-like effect. Good berries. (Group J)

DOGWOOD

A shrub primarily used for winter effect, moist locations, and screening.

Red Twig and Yellow Twig (6')—Beautifully colored branches during the winter. (Group I)

Variegated Leaf (6')—Silver and green variegated leaves with red twigs in winter. (Group J)

EUONYMUS

Group of shrubs that can be used for screening, specimens, or foundation plantings with evergreens. Slow growing.

Alatus (Winged Strawberry or Burning Bush) (6') — Brilliant crimson foliage in autumn, interesting square corky bark, slow growing.

Alatus Compacta (5')—Dwarf slow growing form with deep red fall color.

Europus (Wahoo) (7')—Upright grower with dense, dark green leaves turning scarlet in autumn, pink fruit opening to orange seed.
(Above varieties Group K)

FORSYTHIA

Earliest flowering shrub with bright yellow flowers, the breath of spring.

Spectabilis (6')—Popular heavy blooming variety — bright yellow flowers. (Group I)

HIGHBUSH CRANBERRY

(see Viburnum)

HOLLY GRAPE (Oregon Mahonia)

See Broadleaf Evergreens, page 7.

HONEYSUCKLE

Zabelli (8') — Upright, shapely fast-growing shrub with red flowers and bright green foliage. The best tall hedging plant.

3-4' 1.10	4-5' heavy . . . 1.75
4-5' 1.50	4' heavy B&B 4.50

RED WEIGELIA—Flowers in May and June, repeating bloom in August and September.

THUNBERGI SPIREA—Soft, graceful foliage after the period of white bloom makes this a useful low shrub. Fall color, too!

AZALEA MOLLIS HYBRIDS—Our varieties of azaleas are acclimated to Northern Illinois. Ask for instructions on care. Glorious spring colors!

LILACS

French Hybrids (8') — Large leaf type with huge clusters of fragrant flowers suitable for cutting. We recommend buying French Lilacs B&B.

Belle de Nancy—Double pink.

Charles X—Single reddish purple.

Ellen Wilmott—Double white (late).

Florence Stepman—Single white.

Ludwig Spaeth—Single deep red.

Mamie Lemoine—Double white.

Marechal Foch—Single red.

Montaigne—Double mauve pink.

President Grevy—Blue.

3-4'	3.00
4-5'	3.75
3½' B&B...	6.00
5½' B&B..	12.50

Persian (8') — Outstanding full dense shrub for screening with lavender flowers, very fragrant but are not suitable for cutting. (Group I)

MOCK ORANGE

Popular shrub, wonderfully fragrant white flowers in June.

Golden Mock Orange (See page 15)

Minnesota Snowflake (7')—Large double white flowers, profuse bloomer. (Group J)

Virginalis (7') — Loaded with double white fragrant flowers. (Group J)

Single (Coronarius) (8')—Tall screening shrub with sweet scented flowers. (Group I)

NANKING CHERRY (8')

A very early blooming shrub with breathtaking delicate pink-white flowers, edible cherries in July. (Group I)

PRIVET

Amur River North (see Hedging, p. 20).

PRUNUS CISTENA (Red Leaf Plum)

(6') Shrub with red foliage all spring, summer and fall. Nice contrast with evergreens. A compact grower on its own roots.

2-3'	1.75	4-5'	3.50
3-4'	2.50	4' B&B	5.50

PRUNUS TRILOBA (Rose Tree of China or Double Flowering Plum) (6')

Large pink rose-like flowers around Mother's Day—one of the most beautiful shrubs in existence (On own root. This will never revert to wild.)

2-3'	2.50	4' B&B	10.00
3-4'	3.00	5' B&B	15.00
4-5'	4.00	6' B&B	20.00

PUSSY WILLOW (French Pink Variety) (10')—Used for moist locations. The silver catkins are popular for flower arranging. (Group I)

ROSE OF SHARON — Our customers request these for mid-summer bloom and tall narrow screening.

RED LEAF PLUM—We feature Cistena—the best colored compact variety. These are on their own roots. Red foliage all summer.

QUINCE (Japanese Flowering) (5')

Spectacular early blooming artistic shrub. Choice shiny foliage. Flower arranger's delight. We sell newest hybrid cutting grown varieties. (Good investment to buy quince B&B.) (Group J)

Nivalis—White flowers, wide spreading.

Rubra Red—Red flowers.

RUSSIAN OLIVE (10')

Silver foliage plant used for color contrast. (Group I)

SHADBLOW (Amelanchier) (10')

Naturalistic large shrub with early white flowers, edible small red fruit, attracts birds. (Group J)

SMOKE BUSH (Rhus Cotinus) (9')

Blooms in July. (Group K)

Royal Purple—New variety with rich coppery purple foliage all summer and feathery red plumes in July. (Group K)

SNOWBALL BUSH (see Viburnum)

SPIREA

A very popular versatile group of shrubs. (Group I)

For low growing varieties, see p. 16.

Bridal Wreath (Van Houttei) (5')—A large graceful shrub, arching habit of growth with spectacular white flowers in May.

Prunifolia (5')—Upright medium sized shrub with fine double white flowers in May, leaves color nicely in the fall.

SUMAC

Shrub used for naturalistic setting—has brilliant red foliage in fall.

Aromatic (fragrant) (7')—Small yellow flowers in April, followed by red berries. (Group I)

Staghorn—Artistic leaf structure. Brilliant fall foliage. (Group J)

VIBURNUM

Versatile large shrubs that are easy to grow and tolerant of shade.

American or Highbush Cranberry (9')—Excellent large screening shrub with single lacy white flowers in May and scarlet red fruit that hangs on through the entire winter. (Group J)

Carlcephalum (Plant Pat. 776) (7')—Noted for its large pinkish-white flower clusters that have outstanding Korean spice fragrance. Reddish foliage in fall (Group K)

Carlesi (Korean Spice Bush) (5')—Outstanding fragrant pink-white flower clusters. (Group K)

Dentatum (Arrow-wood) (7')—Shrub that grows under adverse conditions; white flowers in June followed by black berries and attractive foliage in the fall. (Group I)

Lantana (Wayfaring Bush) (7')—Ideal shrub for shade and city conditions, leathery dark green leaves, single white flowers in summer with red berries turning black. (Group I)

Opulus Sterile (Snowball) (7')—Blooms profusely with large double white flowers in late May. (Group J)

Setigerum (Tea Viburnum) (7')—White flowers, brilliant red berries in fall—one of the finest narrow pyramidal shrubs. (Group J)

WEIGELIA (Cardinal Bush) (6')

Abundance of gorgeous flowers on a medium sized shrub. Red flowering varieties bloom in June and repeat bloom in August and September.

Bristol Ruby—Flowers sparkling ruby red, repeat bloomer. (Group J)

Rosea—Pink flowers, late May (Group I)

Variegated—Leaves are variegated white and green, flowers are pink. (Group J)

WITCHHAZEL (8')

Shrub that is used for naturalistic moist shady locations.

Vernalis—Early spring blooming yellow fragrant flowers.

Virginiana—Fall bloom. Yellow flowers. (Above varieties Group J)

BALLED AND BURLAPPED SHRUBS CAN BE PLANTED ALL SUMMER

KOREAN SPICE BUSH—Flowers have irresistible fragrance. Come to Klehm's and SMELL before you buy.

VARIEGATED DOGWOOD—Klehm's call this a "triple" feature shrub—white flowers in spring, variegated summer foliage and red twigs in the winter.

SPIREA COCCINEA—Rose red flower clusters on low-growing shrub. Makes gay, easy-to-care-for hedge.

KLEHM'S ESTATE PEONIES

OUR SPECIALTY SINCE 1902

MEET CARL AND LOIS KLEHM—They invite you to view the Klehm Peony fields in early June—a breathtaking sight—an ideal time to make your selection.

Klehm's Nursery features a new series of peonies — Estate Peonies. Several decades of careful development are the background for these peonies, displaying the most desirable combination of outstanding characteristics—extra large, double flowers on stiff, strong stems — excellent deep green foliage — unflinching performance.

The Peony is not only one of the most beautiful of perennial plants, but it is easy to grow, particularly well adapted to our climate and soil. Proper choice of varieties can mean a blooming season from May 10 to June 25 in the Chicago area.

The magnificent blooms come in singles, doubles, and the colors range from the purest white to the deepest reds.

A LABELED DISPLAY IS ASSEMBLED IN OUR GARDEN SHOP IN SEASON—MAY AND JUNE. PLACE YOUR ORDER THEN FOR FALL DELIVERY. PEONIES SHOULD BE PLANTED IN SEPTEMBER OR OCTOBER.

PERENNIALS

Iris, Daylilies, Coral Bells, Chrysanthemums, etc.

Come and see our perennials as they come into bloom. They are field grown. We feature them potted and ready to be planted into your yard for immediate effect.

FOR PRIVACY

FOR BEAUTY

FOR "FRIENDLY" LIVING FENCES

A natural screen is friendly . . . and grows in value, beauty and utility with every passing year.

If you have a favorite shrub or evergreen, ask us about its suitability for YOUR living fence. Striking, highly personalized landscape effects can be created for you this way.

Hedging prices are keyed by letters "L" and "M" listed below

PRICE GROUP L

18"	.75	3-4'	1.75
2-3'	1.25	4-5'	2.25

PRICE GROUP M

12"	.75	18-24"	2.00
15"	1.50	24-30"	3.25
15" Potted . . .	1.75	24-36" B&B . . .	4.75

ALPINE CURRANT (18-36")

Lovely full hedge adapted to any conditions. Shade or sun. (Group M)

BARBERRY

(For prices, see Shrubs, page 15.)

Red or Green (24-48") — Barrier type hedge, good color.

Pygmy Barberry (8-12")—Low, colorful hedge.

COTONEASTER ACUTIFOLIA (3-6')

Best narrow hedge. Shiny dark green foliage. (Group L)

COTONEASTER DIVARICATA (2½-5')

(For prices, see Shrubs, page 16.)
Wide spreading, graceful hedge.

CRABAPPLE (For prices, see Trees, p. 12)

Strathmore Flowering Crab (12')—Upright pyramidal crab with deep pink flowers, reddish foliage.

EUONYMUS ERECTUS (12-18")

Small dark broad leaf evergreen. A truly upright grower for trim hedge. (Group M)

EVERGREEN HEDGES

(for prices, see pages 4 to 7)

For year-around screening, choice quality and beauty—Yews, Junipers, Pine, Hemlock and Spruce.

FLORIBUNDA ROSE HEDGE (1-3')

(For prices, see Roses, page 24.)

Floribundas make a spectacular ever-blooming low hedge—not to be confused with common Multiflora Roses.

HONEYSUCKLE

Dwarf (Clavey) (18-36")—For prices see Shrubs, page 15. Outstanding for shearing into tight low hedges.

Zabelli (5-9')—Red flowers—dense, upright, fast growing hedge or screen; stands all adverse conditions.

18-24" 10 or more, each35

3-4'1.10 4-5'1.50

4-5' heavy. 1.75 4' B&B4.50

PERSIAN LILAC (6-9') — For prices, see

Shrubs, page 17. Full, dense hedge with fragrant lavender flowers.

PRIVET—Most economical hedge.

Amur River North (3-8')—Hardest and best privet with olive-green foliage.

Prices 10 or more:

10-15" .18 3-3½'50

2-3'35 3-3½' extra heavy .75

Bundles of 20 privet2.50

Lodense (18") — Compact dwarf form making neat low hedge. (Group M)

Golden Vicary — See Shrubs, page 15.

ROBIN HOOD ROSE (3' or over)

The only one of the many advertised "hedging roses" that we recommend. Cherry red flowers. Suitable for large areas. Use Floribunda Roses for smaller areas.

Each75 10 for6.75

WASHINGTON HAWTHORN (6-15')—For

prices, see Trees, page 13. Narrow screen outstanding for year around interest — white flowers in spring, glossy summer foliage, interesting red winter berries.

WINGED BURNING BUSH (3-7') — For

prices, see page 16. Dense hedge, needs little trimming, interesting corky bark. Vivid red fall color.

WILLOW (18-36")

Arctic Blue — Dwarf shrub with gray-green foliage. (Group L)

YEWS—For prices, see page 7. Japanese Yews are unequalled for choice hedging material.

Taxus Capitata (7' up) — Upright, tall hedge.

Taxus Hicksi (5')—Columnar hedge — narrow.

Taxus Hatfield (5')—Columnar hedge, wider than Hicksi.

Taxus Cuspidata Compacta (1-3')—Can be kept low, trim and formal.

DENSIFORMIS YEW HEDGE—Photo of Klehm-landscaped home in Park Ridge with low yew hedge in front of porch.

PERSIAN LILAC—Close-up of Persian lilac in flower. Hedge is hardy, fragrant, fast-growing. Good tall screen.

COTONEASTER ACUTIFOLIA HEDGE—Planted by Klehm Nursery two years before this picture was taken. Choice narrow screening material.

ALPINE CURRANT—Choice compact hedge. Photo taken in this area in 1962.

ZABELLI HONEYSUCKLE HEDGE IN PARK RIDGE—Planted by Klehm Nursery three years before this photo was made. Most rapid-growing hardy screening material.

ZABELLI HONEYSUCKLE IN BLOOM

HYBRID CLEMATIS—See varieties and colors listed below.

AJUGA*

Very low ground cover with blue spring flowers. Hardy perennial, fast spreading.

BITTERSWEET

Shiny green leaves, orange berries.

CLEMATIS

Our best flowering vine. Spectacular bloom, well adapted to our soil and climate. Unlimited used in design.

Summer flowering

Duchess of Edinburgh—Double white.

Durandi—Pure blue.

Henryi—Large white.

Jackmani—Deep purple.

Lazurstern—Purple-blue.

Montana Rubens—Rose-pink.

Nelly Moser—Mauve-pink.

Prins Hendrik—Large azure-blue.

Ramona—Lavender-blue.

The President—Violet-purple.

Ville de Lyon—Carmine-red.

Autumn flowering

Paniculata—White blossoms in fall.

CORAL BELLS*—Charming low ground-cover for sun or part shade.

EUONYMUS

Coloratus* (Purple Leaf Wintercreeper)

Good prostrate groundcover, which colors dark red in the fall.

Vegetus (Big Leaf Wintercreeper or Evergreen Bittersweet) — Broadleaf evergreen foliage for sun or shade.

Potted 1.50 to 3.50

18-24" B&B 6.50 24-30" B&B 9.00

HONEYSUCKLE (Heckrottii) (15')—Flame pink, cream gold two-tone flowers.

HYDRANGEA (climbing)

Choice vines — dark green foliage, white flowers in late summer, self-clinging. Grows in shade.

IVY

Baltic (Thorndale and Bulgarian) — Lovely hardy evergreen vine to grow on wall — also a good prostrate ground cover in shade.

Boston—Most popular vine where trellis is not wanted. Fast growing, good fall color.

Engleman—Large leaves, fast growing, brilliant autumn color.

CLIMBING VINES . . . Invaluable in the Garden

For decorating walls and fences

For covering pillars and posts

For accenting architectural features

and GROUNDCOVERS . . .

The "finishing touch" under evergreen and shrub plantings.

Stay low in front of ground-level picture windows.

Save work by cutting down on weeding.

Increase in landscape effect and beauty each year.

All groundcover marked with asterisk* is available potted @ 40 cents.
Tray of 6 for \$2.00 Potted Vines, \$1.00 to \$3.00

Virginia Creeper—Rapid growing vine, large leafed.

JUNIPERS

Creeping Junipers make beautiful fast-growing evergreen groundcover. See page 4 for prices.

MYRTLE (Periwinkle or Vinca Minor)*

Fastest growing, hardiest broadleaf evergreen groundcover in this area. Blue flowers in spring. Charming interplanted with spring bulbs.

.40 to 1.25

PACHYSANDRA (Japanese Spurge)*

Use only in the shade — evergreen groundcover 5 inches tall.

PHLOX SUBULATA (Creeping Phlox)*

Masses of red, blue, pink or white flowers cover plant in spring.

ROSE CLIMBERS—See page 24.

SILVER LACE VINE

Most rapid growing vine. Fragrant, lacy white flowers in fall.

TRUMPET CREEPER

Orange trumpet flowers—showy.

WISTERIA VINE (blue)—Grafted.

PLANT IT YOURSELF WITH A KLEHM PLAN

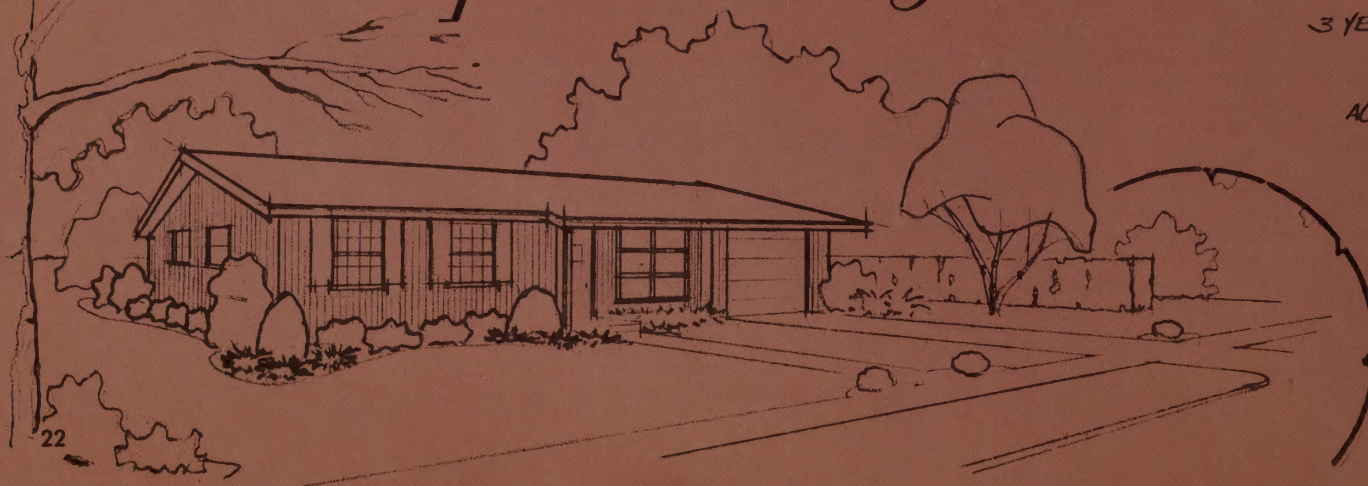

There is a feeling of satisfaction derived from planting something and seeing it grow. It brings a warm feeling of pride because of the beauty you create.

A good planting plan is the first step in creating an effective landscape. Klehm's landscape specialists (including graduate designers) are ready to serve you. Do bring a snapshot and accurate measurements, or a blueprint of your home and let one of Klehm's designers assist you in the proper selection and spacing of your plant material. No charge, no obligation.

Good Landscaping is Good Business Let **KLEHM'S**

LANDSCAPED HOUSES HAVE SALES APPEAL

PLAN YOUR LANDSCAPING

Because of the growing interest in landscape design by progressive businesses and institutions, we have added a graduate architect to our staff. He will consult with you, draw perspective and scale layouts of proposed plantings. He can help you visualize the results of intelligent landscaping geared to the practical needs of your customers, employees and the community.

PLANT KLEHM EVERGREENS WITH OUR FREE DESIGNING ADVICE

Bring us snapshots and measurements and let us suggest plantings to complement *your* home. No charge, no obligation. Gardening is a healthy, satisfying hobby and with our help with choice of material and placement, you can save money and experience real satisfaction.

Landscaping Planned and Planted by **KLEHM** *Nursery*

Picture of Innsfael Subdivision in October 1962, only two months after planting in August. Next spring, in full leaf and flower, it will be even more charming and appealing.

GOOD BUSINESS LANDSCAPING . . .

*A prestige builder for every business.
A proven aid to better public relations.
A real estate value builder.
The mark of the progressive firm.*

Our industrial neighbor in Mt. Prospect practices good trim maintenance policies. This entrance view shows the autumn color of a hawthorn hedge just beginning to turn red, a compact yew hedge and pachysandra in the foreground as ground-cover.

TROPICANA

Potted Roses Are Easier to Plant and Easier to Care For!

WE LIST ONLY POTTED PLANTS IN FULL GROWTH. We select the finest All-America Rose Selections plus varieties proven hardy and beautiful in this area. We pot these plants in extra-large containers early in February, care for them until the moment you buy them. The rose plant you buy at Klehm's Nursery is in active, vigorous growth. Just plant it. We've done all the technical work and worrying about getting them started—you just enjoy them.

You will find our roses moderately priced when compared to "you-do-the-work" bare-rooted types. Price includes 40c potting charge.
